

CLASS SOCIALS ARE ABOLISHED

School Board Adopts New
Rules for High School.

SOME EXCEPTIONS MADE

Assignment of Teachers Not
Made Public.

The board of education in executive session last night, decided upon the assignment of the city teachers for the ensuing school year, but refused to make the assignment public until the teachers' meeting is held today. At that time the assignment of teachers will be announced.

The board will attend the teachers' meeting and Rodolph Hatfield will deliver an address to the teachers. Before going into executive session the board passed some important rules regarding the government of the high school.

The first provided that only the junior and senior classes should be allowed to organize and give class parties in the name of the school. The second rule provided that the board superintendent should see that the high school socials were strictly affairs and there had been some complaint from parents and pupils in regard to the matter. He said that most of the pupils felt that they could not maintain their social position if they imposed the parties.

The board will be dismissed one day during the fall festival and the board decided that the superintendent of schools should select the day on which the school should be dismissed.

The school will be dismissed one day during the fall festival and the board decided that the superintendent of schools should select the day on which the school should be dismissed.

Miss Anna Weiland, assistant librarian, who was granted a month's leave of absence to visit the libraries in Denver, Pueblo and Colorado Springs, read an interesting report of her observations to the board last night. She advised that the card catalogue system be adopted in place of the printed catalogue now in vogue.

Under the card system lists of books alphabetically and authorly arranged are placed in the library for the benefit of the patrons and whenever new books are purchased they can be easily added to the list.

She also recommended that the decimal system of book classification be adopted in place of the alphabetical system now in use here. In other words, she recommended that all books of one subject be classified by certain numbers.

She recommended the purchase of Allen's Dictionary of British and American Authors, and Harper's "Encyclopedia of United States History."

The committee on buildings and grounds was instructed to look after the water supply of the Washington school, where the school pipe from the main has been turned by the city for sewer flushing water and by a private individual.

It was decided to put in an approach to the Franklin school and to level the school grounds.

The condition of the finances were reported as follows:

Cash \$123.31
In National City Bank of New York 67.24
General fund 30,643.30
Total \$31,733.85
Library fund 224.70
Interest fund 18.30
Sinking fund 23,254.45
Total \$55,027.10

POLE BROKE AT TOP

Electric Light Linemen Were in a
Perilous Condition.

Yesterday morning while the linemen of the Wichita Electric Light and Power company were at work on the pole at the corner of 10th and Douglas streets, the pole broke about eight feet from the top and the two men, A. B. Bold and Ray Osborne, who were at work, fell with it. Fortunately there were a large number of telephone, electric light and power wires at that point, and the tip of the pole with its cross-arms struck three wires and was stopped. The men, however, were sent to the pole and were finally rescued from their perilous positions by their comrades with extensive ladders.

OUT ON A FARM
W. H. C. Members Had a Delightful
Day in the Country.

Last Wednesday morning a wagonette and several buggies, crowded with a goodly number of W. H. C. members and some visitors, to the home of the president, Mrs. S. J. Murray. Among the visitors were several juveniles who found a great deal of delight in Mr. Murray's farm. It is about four miles south of the city, a lovely open tract.

The women of the ladies were to make sandwiches, and incidentally, to have a good time. Both efforts were accomplished.

Needles, scissors and tongues were busily plying until the call for dinner interrupted. And such a dinner! Such delicate dishes and cream. With appetites whetted by the drive to the home, a far less tempting dinner would have been refused. Having been invited to the picnic, work was resumed by those who had come for that purpose. Some of the party went towards the pond and the patch of melons, from which had come the luscious fruit in the home. (Some of those melons came back to the city as trophies.) There were pumpkin pies that furnished rural stage horses for some who knew how to blow them. The party consisted of the following:

led by their husbands: Messrs. Lee, Little, Clayton, Blockley, Crocker, Creswell, Rose, Hudson, Harris, Hamilton, Hammond, Leonard, McCollough, Huffman, Buckner, Belling, Carr, Jacobson, Merchant. The juveniles were: Misses Dora and Susie Buckner, Mabel Hamilton, Elma Irene Hudson, Masters Alfred Harris and Hollis Buckner. Mr. Murray and Mr. George Murray put in an appearance at the noon hour.

Mr. W. D. Hoover acted as chairman for the party who went in the wagonette and they were well pleased with their drive. Altogether it was a most enjoyable occasion and all unite in praise of their hosts, Mrs. Murray and Mrs. Geo. Murray. It should have been noted that a sister came in from Hayville, Mrs. S. Kirby, whom many greeted as an old friend.

TWO CHILDREN LOST

Considerable Excitement Caused by
Their Disappearance.

The little son and daughter of Mr. and Mrs. Earl Blase, 1111 South Topeka avenue, wandered away from home a short time before noon yesterday. They were 3 and 4 years old, respectively, and a great deal of uneasiness was caused by their sudden disappearance. Friends and neighbors scoured the neighborhood and late in the afternoon the children were found. They had wandered away from their home and walked several blocks away and started to return when they found they were lost.

Lewis Pettibone Rallied Several
Times Yesterday.

The condition of Lewis Pettibone, who broke a blood vessel in his head Thursday, is slightly improved, but the doctors still have very little hope of his recovery. Yesterday Mr. Pettibone became semi-conscious at three, but only for a few minutes, and would become unconscious again.

The attending physicians are doing everything in their power to save him, and he is responding some to their treatment.

LOW RATES ON CANNED GOODS

Rock Island and Missouri
Pacific Make Reduction.

EFFECTIVE ON SEPT. 14

Rate Will be Reduced 7c Per
Hundred Pounds.

Yesterday the Rock Island and Missouri Pacific freight departments announced a cut of seven cents per hundred pounds on all canned goods from points of production east of the Mississippi river. The rate is to go into effect on the 14th of this month. The rate at the present time is forty-two cents per hundred pounds from points on the Mississippi river and forty-seven cents per hundred pounds from Chicago. When the new rate goes into effect the rate from the Mississippi river will be thirty-five cents and from Chicago forty cents per hundred. All of the points east of the river are effected by this reduction as the low rate west of the river will make the entire rate considerably lower.

This reduction means a great deal to the Wichita jobbers, as it enables them to purchase their goods at a much less figure and they can place it in the hands of the wholesaler at a correspondingly reduced figure.

Some of the railroads are making a fight for Colorado business at the present time and they are cutting and slashing the rates in a very pronounced manner and all middle and western Kansas jobbing points also come in for the benefits of these reductions. Middle and western Kansas jobbing points for a number of years have been given the same rates as the Colorado common points and hence when a new rate is announced for Colorado, Wichita gets the same rate, but points east and south of Wichita are left out.

BIG CROWD IS COMING

People From All Directions Will Be
in Wichita Reunion Week.

Guests visiting the reunion headquarters from Oklahoma and the committee that the whole country is coming up. The railroads have fixed rates from all points in Oklahoma and the Indian Territory. Requests have been received from points in Missouri for special rates and the committee is in correspondence with the railroad systems to secure this. There have been some fifteen applications for exhibits and shows on the reunion grounds—which the committee has turned down. An effort was made to have the reunion committee decorate the streets leading to the city and the Street Railway company. The railway companies in other cities decorate and adorn their poles and cars. The patriotism of the business men will lead them to vie with each other in the decoration of the business houses.

With all the extensive arrangements made, the committee are not overwhelmed with the question how to entertain the immense crowds that will be here as the last few days have convinced them.
